CURRENT STATUS OF THE PROJECT

Stage progress:

- Pre-feasibility
- Feasibility
- Detail engineering
- Construction

In contractual stage of exploitation. In 2020, a PUEE was presented to redefine the project focused on copper and gold porphyries.

Adherence to initiatives and best practices:

Environmental License (Cornare)

- Requested
- Under consideration
- Approved

Approved by Resolución 112-2315 from 20th June, 2012 by the Corporación Autónoma Regional del Centro de Antioquia CORNARE

Main achievements in social management

Acceptance in the territory of the mining project, which is developed in coexistence with ecotourism projects such as Termals del Espíritu Santo, which is located within the area of title H7055005.

Works and construction program - PTO (Secretary of Mines of the Government of Antioquia)

- Submitted
- Under evaluation
- Approved

Approved by document 0108701 from 16th Augusts, 2011

The PUEE was filed with filing No. 2022010277136 dated July 1, 2022

Additional project data: *The project includes a title of 2,500 hectares and 15,000 hectares in applications, for which the Single Program for Exploration and Exploitation was filed, which is under evaluation by the Mining Authority.*

The project includes geophysics and drilling, as well as rock, soil and sediment sampling.

Within the mining title there is the progress of two main guides as part of a preparation and development process, whose entrances are called Corozal and Cuero Duro.
