SAN MATIAS

Minerales Cordoba S.A.S.
Operator

Cordoba Minerals Corp.
Investor(s)

III-08021
Mining title

Exploration (Pre-feasibility)
Current stage

LOCATION

Cordoba
Department

Puerto Libertador
Municipality(ies)

Puerto Libertador, San Jose de Ure,
Buenavista and Planeta Rica
Municipality(ies) area of influence

Geovisor Anna MINERÍA

MAIN INFORMATION

US\$ 642.78 million
Global investment

US\$ 100 million
Executed investment

2024-2026
Start of construction

2025-2026
Start of operations

1,800 direct in the Construction and
Assembly phase and approximately
475 in operation.

Employment

- New (greenfield)
- Enlargement (brownfield)
- Replacement (brownfield)
- Reutilization (greenfield)

Type of project

Project of National Interest /
Project of Strategic Regional Interest
Project PNI/PSRI

Intrusive rocks (porphyries included) in Alacrán,
Montiel East, and Costa Azul deposits; and
volcanic rocks (VMS) in Montiel West and
Alacrán deposits.

Type of deposit

Indicated:

Copper: 1,028.79 Mlbs Cu 0.44% Cu;
Gold: 921.9Koz Au 0.27 g/t Au;
Silver: 8.55 Moz Ag 2.52 g/t Ag
from 105.6 Mton

Mineral resources (NI 43-101)

Open-pit

Type of mine

13 years

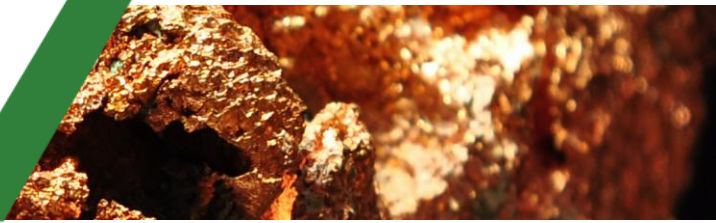

Mine life cycle

22,000 tons per day

Plant capacity

68.8 Mlb Cu, 55 Koz Au y 386 Koz Ag in
polymetallic concentrates

Estimated annual production

CURRENT STATUS OF THE PROJECT

Stage progress:

- Pre-feasibility
- Feasibility
- Detail engineering
- Construction

Adherence to initiatives and best practices:

Sustainability is a fundamental part of our strategy and is at the core of everything we do. Under this vision, we are conducting a detailed analysis to incorporate Environmental, Social and Corporate Governance (ESG) standards into our operation.

We are also in the first phase of implementing the globally recognized Towards Sustainable Mining (TSM) sustainability guidelines.

Environmental License (ANLA or CAR)

- Requested
- Under examination
- Approved

The company is preparing the Environmental Impact Assessment (EIA) for the project.

Main achievements in social management

In 2021, the Social Management Plan was formulated in a participatory manner with the communities in the area. This plan benefited close to 3,800 people through the development of prioritized and jointly executed projects. This meant social investment, strengthening and training initiatives, all with the firm commitment to contribute to good community relations and wellbeing. Some of the initiatives that stand out are:

- **Health:** Improvement of infrastructure and equipment for the only Health Center in the area, which improved first-degree emergency care and contributed to the early detection of malaria.
- **Education:** Donation of materials for the adequacy of schools. Partnership management with the National Learning Service (SENA) for short- medium- and long-term training actions in free courses and rural entrepreneurship.
- **Infrastructure:** Improvement of rural roads, which reduced travel time by up to two hours. Community sewerage, provision of community spaces, delivery of a children's playground and soccer field.
- **Community strengthening:** Development of workshops to consolidate the Community Action Boards, recognizing their importance as an instance of government and leadership.

Works and construction program - PTO (National Mining Agency)

- Submitted
- Under examination
- Approved

The company filed the Work and Works Program (PTO) for the project in November 2021.

Additional project data : On May 31, 2022, the company announced the start of the feasibility study for the project, focused on updating the mine plan and the mineral resource estimate at the El Alacran deposit, in addition, a drilling campaign of 40,000 meters will be carried out, starting with 25,000 meters and six drill holes in the area of the El Alacran deposit in high grade mineralized areas.
